§ 17.53 Limitations on use of public or private hospitals.

The admission of any patient to a private or public hospital at Department of Veterans Affairs expense will only be authorized if a Department of Veterans Affairs medical center or other Federal facility to which the patient would otherwise be eligible for admission is not feasibly available. A Department of Veterans Affairs facility may be considered as not feasibly available when the urgency of the applicant's medical condition, the relative distance of the travel involved, or the nature of the treatment required makes it necessary or economically advisable to use public or private facilities. In those instances where care in public or private hospitals at Department of Veterans Affairs expense is authorized because a Department of Vet-

erans Affairs or other Federal facility was not feasibly available, as defined in this section, the authorization will be continued after admission only for the period of time required to stabilize or improve the patient's condition to the extent that further care is no longer required to satisfy the purpose for which it was initiated.

§ 17.54 Necessity for prior authorization.

(a) The admission of a veteran to a non-Department of Veterans Affairs hospital at Department of Veterans Affairs expense must be authorized in advance. In the case of an emergency which existed at the time of admission, an authorization may be deemed a prior authorization if an application, whether formal or informal, by telephone, telegraph or other communication, made by the veteran or by others in his or her behalf is dispatched to the Department of Veterans Affairs (1) for veterans in the 48 contiguous States and Puerto Rico, within 72 hours after the hour of admission, including in the computation of time Saturday, Sunday and holidays, or (2) for veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) if facilities for dispatch of application as described in this section are not available within the 72-hour period, provided the application was filed within 72 hours after facilities became available.

(b) When an application for admission by a veteran in one of the 48 contiguous States in the United States or in Puerto Rico has been made more than 72 hours after admission, or more than 72 hours after facilities are available in a noncontiguous State, territory or possession of the United States, authorization for continued care at Department of Veterans Affairs expense shall be effective as of the postmark or dispatch date of the application, or the date of any telephone call constituting an informal application.
